MASTER OF SCIENCE IN STRATEGIC MANAGEMNT

Programme Overview

- The Master of Science in Strategic Management (MSSM) is a two-year postgraduate programme designed to develop leaders who can navigate complex and dynamic business environments. It blends theory with practical tools in strategic planning, execution, leadership, and innovation, preparing graduates to make informed decisions, drive organisational success, and contribute to sustainable development across public, private, and development sectors.

Target Group

- This programme is ideal for mid- to senior-level professionals in government, the private sector, NGOs, and development organisations involved in strategic planning, organisational leadership, or policy implementation. It also welcomes ambitious graduates in business, management, or related fields seeking to build careers in strategic management and leadership.

Programme Duration

- 2 Years

Mode of Delivery

- The programme uses a flexible blended-learning approach, combining face-to-face lectures, online sessions, case studies, group discussions, practical assignments, and strategic simulations. Students gain hands-on experience and develop the skills needed to implement effective strategies in complex business environments.

Admission Criteria (Entry Requirements)

- Applicants must hold a Bachelor's degree from a recognised institution in a relevant field, such as management, business, economics, engineering, or public administration. Professional experience in strategic management or leadership is an advantage. Candidates must meet the Malawi School of Government and NCHE postgraduate entry requirements.

Why Choose Our Programme

The MSPM equips professionals with the skills to lead and deliver complex projects successfully. It combines practical experience with global best practices in planning, risk management, and stakeholder engagement. Graduates gain expertise in modern project management tools, ethical decision-making, and sustainable practices. The programme prepares students for leadership roles across public, private, and development sectors.
